

THE NORTHERN TRIBUNE
AN INDEPENDENT WEEKLY
NEWSPAPER

Published every Thursday at Grande Prairie, Alberta—“Betts’ Newspapers”
Shield for Year of 1927-38

The Tribune’s aim is to thoroughly cover all sections and parties; also to aid in the development of the Peace Movement. It is the opinion of the Northern Island empire’s many advantages as a home-land. All news is printed in the spirit of freedom and democracy. The paper’s opinions are expressed only in its editorial columns.

If the articles that I have written have done nothing else, they have certainly given me a great deal of pleasure.

A pen name may be used, but correspondents must also sign their names.

The Tribune does not care for publication, but as evidence of good faith, in publishing a communication.

The Tribune does not care for legal action.

SNOW PROBLEM ON MERCER HILL

Every winter the matter of building a snowdrift about the west side of Mercer Hill is discussed. Time and again motor traffic has had to stop owing to the snowdrifts, and in this hill it is the opinion of motorists that a snow fence would really be a great convenience. For years the provincial government has been appealed to to build the fence, but with

The Tribune would like to suggest that state be gotten out of the winter snowdrifts. The work would be very small. Then some day next summer a bee and the fence would be put up. In a word, do the work by voluntary work.

What do you think of this suggestion?

Along the Trail

By J. B. YULE

I MEET AN OLD-TIME ROUGH RIDER AND COW PUNCHER

Meet Dan Rush, old-time cow puncher, bronco buster and rough rider, a free rider of the plains for years.

The above introduction was made by Frank McDonald of Dawson Creek, who has never seen Grande Prairie.

Dan who knows all the old-timers in the country is taking charge of J. E. Thomas’ ranch along the Wapiti. He worked for Frank McDonald for ten years, and is now a resident of Grande Prairie. He will be here to assist in the drive to make the flats a better place to live in. Dan is from Grande Prairie’s main thoroughfare.

Dan for some years has been riding the range in the Cariboo, and one of his great regrets is that he did not see his old pal, “Scotty” Taylor, before he passed on. . . .

BEARS INVESTIGATING

The other day Jimmy Kimberly, took the first train down to the Similkameen to pay Grande Prairie a visit. Now it is not the first time that Jimmy has been here during his many years of trapping.

Had he returned to the same place, he would be treated as an ordinary occurrence. Instead, he made his entrance into town in a most unusual and unexpected manner. He was a bear.

In talking with other trappers who were in town the writer was informed that they are apprehending a Trappers Committee to investigate this unusual conduct. “We are determined to get to the bottom of this,” Jimmy, on the other hand, insists that there is nothing strange about it. “The Committee can go as far as it likes, so far as I am concerned. They will find everything according to the trapper’s code.”

DAD'S NOTIONS

By E. S. Stanley

Each of our body cells—millions of them—has an instinct. One doctor recently advanced the startling theory that we think with our cells instead of with our brains.

However, it is clear that the body cells think. Atruly, the body selects from the blood stream what they require and reject all else. The cells, the finger nail, the toe, the eye, nor do those of the eye for the bone, this precise judgment reveals a high degree of intelligence.

Not only with exactitude do these cells work night and day, but also with a remarkable ability to function. The action of the heart, of the lungs, in one step, of the digestive tract, in the muscles, in the brain, in the uniform temperature of the body is but a part of the vast number of functions which individuals do without our immediate knowledge.

This subject was touched by Rev. C. E. Wragg in his Christmas message as follows: “. . . the best gifts are those which can outlast nobility and beauty in the realms of art. The music instrument would encourage development of musical skill, carpenter tool, the boy who carries good books and good pictures, inspire to noble thoughts and worthy aspirations. By this wisdom the tree of thoughts and interests, may be planted, a manhood, an expert contractor, a good husband and a good citizen adding to the world’s progress.”

But the body, provided with the work for the soul’s uplift and nobility, may by wrong training cause the soul to descend and irreparable disgrace.

“Stick ‘em up,” “Stick ‘em up,” shot out the six-year-old lad towards me with his toy pistol in play. Amusing enough, perhaps, if you don’t think it is just as possible that this lad is an embryo bandit as it is that the other lad is a budding expert carpenter? What can parents think of in giving such toys?”

“I could have made a better get-away than that myself,” remarked a young fellow on the platform in a story in which a hold-up was featured.

The foulness of crime in our country was exposed by a young fellow who was an addict of crime stories, so I was told by certain ones who knew him.

Interesting News From Sexsmith

Vol. VI, No. 31

By R. A. MACLEOD

January 18, 1938

HYTHE HOCKEY TEAM TRIMS
SEXSMITH BY SCORE OF 9-2

"The Aspirins came down like a storm. Their cohorts all gleaming with purple and gold."

Something like this happened in Sexsmith Saturday when Hythe hockey team paid up a visit and, boy on boy! what a trouncing we got. The details being 9 to 2 for the visitors.

It is only fair to the local boys to say that both teams played hard forward line, and the defense were off with injuries, and the balance of the team could not be blamed.

We were told that four of the best Hythe men were not with the team, and if this is a fact, we cannot understand why they are wanted their time up in this neck of the woods.

One slightly inebriated rooster kept us company for the first combination for about the last two periods, and it started to get on our nerves, and we finally sent him, but did not want to start another World's War and find ourselves in the post office. Back home in the pleasantness in Europe, so desolate.

On Friday night the team travelled to Cranbrook and won the Broken Cup, and came home without it. And on Saturday two of the young teams went to Grande Prairie, getting nearly frozen to death on the way, and in those cases came away with the short end of the stick.

The only bright spot was the Sexsmith team, which won the successful defense of the Oxford Cup on Tuesday night against Grande Prairie and the team from the same city. A exhibition game on Monday night. The rest of the week the "goomees" were in the ascendancy.

**"MICKEY MOUSERS" DEFEATED
BY GRANDE PRAIRIE MIDGETS**

We had the pleasure of accompanying the Mickey Mousers, who were the 12th hockey team, ably managed by Fred McNaughton, who wanted to try something new at Grande Prairie of the same age.

This was the first game the "Mickey Mousers," which, by the way, is the first name of the team, had ever played and although they were badly trounced by Grande Prairie, got off with flying colors, from which they will no doubt profit in the future.

The highlight of the trip for the boys was to visit the studios of CFCG where, through the courtesy of this company, they were invited to send word to their parents in Sexsmith. This was also the writer's first time to a radio studio, and he certainly was very excited. We had heard "Uncle Tom" over the radio several times, and our hearts paled at him when he would come down with whiskers down to his knees, but we find him to be quite a presentable-looking young man.

Most of the kiddies in sending presents, and the ones that the team had lost the game, but that it was a good one, and that they had to do better next time. The boys were told it was young Olson, was more practical and warned his mother to have supper ready when he got home.

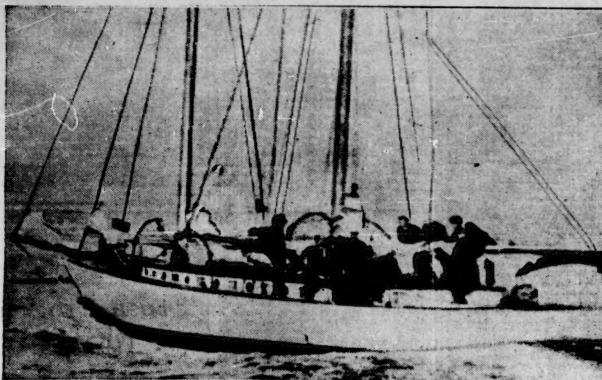

Classified ads pay their sponsors.

What has happened to the dances at the North Kinsmen Community Hall? There has not been one for some time, and as they have been so popular, why not keep up the good work?

THE MYSTERY YACHT BEING TOWED INTO SAN PEDRO

Murder and murder were committed aboard the luxurious yacht, *Annie*, which drifted for eight days on the Pacific before being towed into San Pedro, California, by a coast guard cutter. The ship had been the scene of horrors which came from the lips of the passengers, told how Jack Morgan, an adventure-seeking, would-be-pirate houseboy, aboard the yacht, shot and killed the skipper, wealthy Dwight L. Faulding, but later was himself slain and his body tossed overboard when he attempted to dominate the crew and passengers.

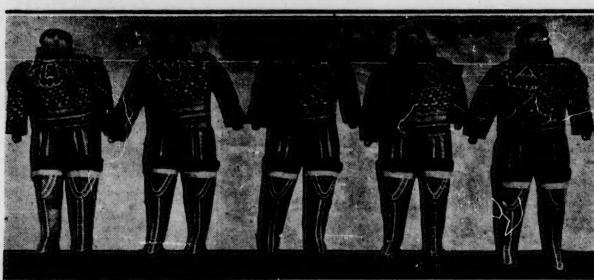

GUESTS AT PRINCESSSES' PARTY

Two of the little guests who attended the party at Buckingham Palace given by Princess Elizabeth and Princess Margaret Rose were Miss Plunket, daughter of Lord Plunket, and Zoo D'Erlanger. The Plunket boy (above) went in the uniform of a sailor of Nelson's old flagship, "Victory," and little Miss D'Erlanger wore an ermine wrap over her dress.

A FAMOUS NIGHT LIGHT

Canadians who have journeyed to the Moon Country by way of Southampton will remember the famous lantern on Calshot's Point, Isle of Wight. Here is a picture of the huge lantern which, revolving in its trough of mercury, gives a flash of a fifth of a second's duration every five seconds. The reflection of this light in clear weather can be seen for almost one hundred miles.

DIONNE QUINTUPLETS GET ESKIMO DOLLS

These five dolls were made by an Eskimo woman at Narssaq in Greenland for the Dionne quintuplets, and were brought back by Mrs. J. O. B. Petersen, of Montreal. The faces and hands are of sealskin, as are also the high red boots, while the trimmings are of seal fur, with some dog fur edging the embroidery on the trousers. The blouses are of blue and white store calico, and each doll wears a variety of furbelows. In center of white blouse is the name of the child of Dionne, to whom it belongs. From left to right they are: Emilie, Yvonne, Marie and Annette. Mrs. Petersen's husband is engaged on prospecting survey work in Greenland, and was forced by storms to spend the winter of 1936-37 at Narssaq, and is now visiting her mother, Mrs. C. W. Trenholme in Montreal.

ONE MAY WIN THE APPOINTMENT TO THE UNITED STATES SUPREME COURT

The possibility that President Roosevelt will appoint one of the three men above as successor to Mr. Justice Sutherland of the United States Supreme Court is discussed in Washington. Judge Samuel Bratton, left, is an Appeals Justice, and is 49. Senator Sherman Minton is a young liberal from Indiana, and Solicitor-General Stanley F. Reed, right, is a 54-year-old Kentuckian.

DISCUSSES ANGLO-U.S. PACT

The British-American Trade Pact was discussed in an announcement by Mr. Cordell Hull, United States Secretary of State, during which he said that the protectorates and mandates, with New Zealand, will be included in the accord, while the British government and the United States are endeavoring to formulate a

VIRGIN ISLES ENJOY PROSPERITY AFTER FIFTEEN YEARS OF POVERTY
The Virgin Islands, a group situated 60 miles east of Puerto Rico in the Caribbean Sea, are at last experiencing material economic recovery after a decade and a half of poverty and distress. The influx of winter tourists is largely responsible for the mild prosperity which exists, and the recent inauguration of a weekly steamship service from New York to the Islands, coupled with improvement of transportation facilities on the islands themselves, presages a better future for inhabitants of the beautiful Islands of St. Thomas, St. Croix and St. John.
